

Incoming Email Settings

There are two options for incoming Internet email: POP and IMAP. Choose POP if you only use email on a single device (such as a computer). Choose IMAP if you need to use one email account on several devices (such as a computer, a smart-phone, and a tablet). Newer clients may allow the STARTTLS option while older clients might not. Choose the method most appropriate the device.

NEWER CLIENT POP CONFIGURATION SETTINGS

Server Name: *pop3.logonix.net*
Protocol: *POP3*
Encryption Required: *Yes*
Encryption Type: *STARTTLS*
Port: *110*
Logon Name: john.doe@logonix.net
Password: *use your regular email password*

NEWER CLIENT IMAP CONFIGURATION SETTINGS

Server Name: *imap.logonix.net*
Protocol: *IMAP*
Encryption Required: *Yes*
Encryption Type: *STARTTLS*
Port: *143*
Logon Name: john.doe@logonix.net
Password: *use your regular email password*

OLDER CLIENT POP CONFIGURATION SETTINGS

Server Name: *pop3.logonix.net*
Protocol: *POP3*
Encryption Required: *Yes*
Encryption Type: *SSL*
Port: *995*
Logon Name: john.doe@logonix.net
Password: *use your regular email password*

OLDER CLIENT IMAP CONFIGURATION SETTINGS

Server Name: *imap.logonix.net*
Protocol: *IMAP*
Encryption Required: *Yes*
Encryption Type: *SSL*
Port: *993*
Logon Name: john.doe@logonix.net
Password: *use your regular email password*

Outgoing Email Settings

The standard SMTP method is preferred and should be used—the alternate method is for older mail programs that don't support the standard method.

STANDARD SMTP CONFIGURATION SETTINGS

Server Name: *smtppauth.logonix.net*
Protocol: *SMTP*
Encryption Required: *Yes*
Encryption Type: *STARTTLS*
Port: *587*
Authentication Required: *Yes*
Logon Name: john.doe@logonix.net
Password: *use your regular email password*

ALTERNATIVE SMTP CONFIGURATION SETTINGS

Server Name: *smtppauth.logonix.net*
Protocol: *SMTP*
Encryption Required: *Yes*
Encryption Type: *SSL*
Port: *465*
Authentication Required: *Yes*
Logon Name: john.doe@logonix.net
Password: *use your regular email password*

Additional Information

Logonix Corporation email services are not guaranteed in any way. Customers are responsible for the backup, archival, and security of their own email messages and devices. Logonix Corporation provides an effective incoming bulk mail filter that catches the vast majority of "spam" messages but does not guarantee a spam-free mailbox. Traditional SMTP on port 25 is blocked as a security measure.
